Boyd, getting chased on his bike by the same two bullies. That is, until the adopted kid with the bare feet and the beat up bike escaped his tormentors and maneuvered through the protective branches of an enormous willow tree. But this wasn't just any willow tree. It had a built-in view screen wrapped completely around its massive trunk, and below that a computer keyboard supported by a cluster of roots. That's when things started to get really weird for J.D. Boyd. The Izwuzz Machine is the story of a nine-year-old runaway who discovers, befriends and eventually lives in a technologically advanced willow tree. She knows all about what is and what was, but more importantly, she's keen on using this information to help those who feel small and powerless. Izzy is of particular interest to J.D. After all, he's always wondered who his real parents are and how he might be able to find out something (anything!) about them. In Izzy he finds motherly kindness, plus an opportunity he just can't pass up. The next thing he knows, he's sleeping in Izzy's mossy nest, safe and sound, 8-feet off the ground. Pretty soon he has some interesting new friends: Miss Quito, a mosquito determined to never drink blood, Angie, a sunflower who likes to go on bike rides, and a stub-tailed rat named Norway. But J.D. is not the only one interested in his family tree. Izzy also wants to know...
