Excerpt: .are not subjected to hard wear, a plain glazed tile makes a clean and satisfactory job, but where much wear will come, the hard, vitreous, unglazed tiles give a better wearing surface. The foundation for tiles should be prepared from the best Portland cement; it should be perfectly level and allowed to harden thoroughly before the tiles are laid. The foundation for both floor and wall tiles should be carefully brushed, to remove all dust and other foreign substance, and then well wet before the cement bedding is applied. Portland cement should be used for setting floor or wall tiles, and for grouting the floors, and the best Keene s cement for filling the joints in wall tiling. Clean sharp sand, well screened, should be used in equal parts with the cement for floors, and with 2 parts sand to 1 of cement for...
